

Introduction to Craniosacral Therapy

-A course offered by the Animal Rehab Division of the Canadian Physiotherapy Association

Instructor: Laurie Edge-Hughes, BScPT, MAnimSt (Animal Physio), CAFCI, CCRT

Course Description:

This one-day course is designed to provide participants with a background into craniosacral therapy. A brief history of osteopathy (& in particular craniosacral therapy), concepts and theories will be explored. Participants will be challenged to explore a new paradigm of palpation, assessment and treatment by feeling for and working with the craniosacral rhythm.

Learning Objectives:

Participants will:

- be introduced to osteopathy and craniosacral therapy
- be instructed in the indications & contraindications for craniosacral therapy
- be instructed in what evidence there is and isn't to back up craniosacral therapy
- gain a basic understanding of the gentle touch and perceptions required to practice craniosacral therapy
- improve their touch skills in order to feel for craniosacral rhythm
- be instructed in concepts specific to craniosacral therapy utilization (listening, still points, release points, tissue release signs craniosacral rhythm, balancing, etc.)
- learn how and where to induce a 'still point'
- learn how to address the key 'release points'
