

Marina Petrevska
Education Team -
Knowledge Translation

Marina graduated from the University of Toronto in 2015 with a B.Sc. in Human Biology and went on to complete her MSc.PT from Queen's University in 2019. Since then, she has been working at the Scarborough Health Network as a physiotherapist in the acute medicine and stroke rehabilitation units.

After working with children with disabilities for over ten years as a program coordinator, lead coach and volunteer for the Pickering Soccer Club All Abilities Program, Marina began her PhD at the University of Toronto in 2020 under the supervision of Dr. Virginia Wright and Dr. Elaine Biddiss. Through her doctoral work at the Rehabilitation Sciences Institute and in conjunction with Holland Bloorview Kids Rehabilitation Hospital, Marina aims to develop a novel home-based therapy gaming system to improve balance, mobility, and functional outcomes in children with neuromotor disorders. Marina is looking forward to synthesizing, disseminating, and exchanging knowledge with Paediatric Division members in her incoming role as Knowledge Translation Representative.
