## Global Health Division

Canadian Physiotherapy Association

### Subcommittee Member Role Descriptions

#### Communications

1. Attend regular online meetings
2. Support the Communications Officer(s) in preparing global health contributions for posting (e-blasts, social media, website), in both English and French
3. Seek and mentor contributors to global health communications, under the guidance of the Communications Officer(s)
4. Push the frontier of media and communications with the Global Health Division
5. Support other initiatives within the GHD related to communication

#### Indigenous Health

1. Attend regular online meetings
2. Provide informal mentorship to those working with Indigenous populations
3. Support and lead initiatives that enhance the profession's capacity to effectively address the health issues of Indigenous populations in Canada

4. Develop or source resources that can help physiotherapists and physiotherapy students working in Indigenous communities
5. Contribute to communications developed by the GHD

### Knowledge Translation (KT)

1. Attend regular online meetings to discuss progress toward tasks and direction of the Knowledge Translation Subcommittee
2. Work toward one or more of the KT Subcommittee tasks related to current projects
3. Contribute to endeavours to a build more connected global health research and knowledge translation community in physiotherapy

### Physiotherapy Students

1. Attend regular online meetings (approximately every 6 weeks)
2. Help carry out physiotherapy student GHD endeavours and initiatives.
  - a. Touch base regarding ongoing projects
  - b. Swap/add/exchange ideas with regards to projects
3. Create global health networking opportunities between universities that offer physiotherapy programs across Canada
4. Participate in other additional GHD Physiotherapy Student Subcommittee tasks
