Introduction to Equine Rehabilitation
-A course offered by the Animal Rehab Division of the CPA

Course Description:

The purpose of this course is to provide the participant with a fundamental understanding of functional anatomy and palpation, equine behaviour as it relates in a therapeutic setting, and the ability to perform a rudimentary musculoskeletal and neurological assessment of the horse. Participants will be guided to use their existing problem solving knowledge and understanding of basic physiotherapy principles and treatment techniques when confronted with equine specific conditions and pathologies.

Learning Objectives:
• Describe clinically relevant anatomical differences between human and equine patients
• Identify key neuromusculoskeletal structures; bones, muscles, nerves ligaments, tendons and cartilages
• Demonstrate the ability to palpate important musculoskeletal structures on live equine subjects
• Recognize normal and abnormal gait patterns within and between breed and equine body types
• Perform a rudimentary neuromusculoskeletal physical examination of a horse (inclusive of extremities and the axial skeleton)
• Identify specific to common equine pathologies and conditions, identify treatment goals and physiotherapy techniques and/or tools to address the treatment goals

Registration: 2016 Introduction to Equine Rehabilitation

Dates: (please select)
[ ] October 14 – 16 Calgary, Alberta (Donna LaRocque, BScPT, CAFCI, CCRT, CERT)

Cost: ___ ARD member ($1000 + GST/HST) = $1050
      ___ Non-ARD member ($1100 + GST/HST) = $1155
Animal Rehabilitation – GST/HST # - 106865397 RT0031

Pre-Requisites: Registered physiotherapist
Successful completion of ‘Introduction to the Equine Patient’
